

Cladtek Run 2016 Promoting Health and Well Being

On 21st August, Cladtek held its inaugural 5km “Cladtek Run” promoting health and well-being for all its employees.

Neither an early Sunday start nor some untimely rain deterred the spirits and energy of the more than 550 Cladtek people who took part.

The event was run in Batam, starting and finishing at Cladtek’s major global manufacturing facility for CRA clad products on the Island.

The runners all crossed the finish line to cheers from families and colleagues, following which a well-earned brunch was enjoyed by all.

Cladtek is a leading employer in Batam and is highly focused on the Health, Safety and Welfare of its employees as part of its broader corporate social responsibility. The theme of this year’s Cladtek Run was “Say No to Drugs” in support of Indonesia’s government and community driven initiative.
