Other Information

It is important to note that if coming to Batam through Singapore, Singapore immigration requirements must also be met.

Some nationalities that do not require a visa or can obtain visa-on-arrival for Indonesia, do still require a **visa for entry to Singapore**. If Singapore visa is required, it will need to be multiple entry to allow for transit through Singapore in arrival, and transit through Singapore on departure.

The alternative option is to bypass Singapore and fly direct to Jakarta. This option may require overnight stay in Jakarta.

Please check visa requirements for Singapore before booking travel.
